Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claims 1-36 are pending in this application.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 13-16 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

R in formula R-(C=O)-O-aryl is not defined in the specification so as to ascertain the structures included and/or excluded from the claims 13-14 and to determine if 4-nitrophenyl acetate and 4-fluorophenyl acetate in claims 15-16 are properly depend from claims 13-14 respectively. By adding the definition the rejection would be overcome. However, the introduction of a new subject matter into the specification would raise the issue of new matter rejection.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

Claims 1-36 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

R in formula R-(C=O)-O-aryl is not defined in claims 13-14 so as to ascertain the metes and bounds of claims 13-16. See the examiner's suggestion above.

Claims 1, 4, 21-22, 27-28, 33-34 recite substitutes consisting of H. This implies H substituting H in the claims, and renders the claims confusing. Therefore, claims 1-36 are indefinite. By deleting H as a substituent from claims 1, 4, 21-22, 27-28, 33-34 the rejection would be overcome.

The term "with", line 1, claims 5-8 renders the claims confusing and therefore claims 5-26 are indefinite. By deleting the term the rejection would be overcome.

Claims 5-6 as written are indefinite. It is not clear if the formula in the claims is a representative of R. If it is "or" on line 3 of the claims should be deleted and other appropriate correction should be made.

Applicant's representative was invited to amend the claims to overcome above rejections but a written office action was requested.
